

Your family's name, *set in the walk* for good.

A family name, a house number, a line that means something — pressed into a driveway, patio, or garden path while the concrete is still fresh. It becomes part of the slab, so there's nothing to peel, fade, or repaint.

HOW TO GET ONE

01

Design it free

Type your words in the online designer and see the exact 3D carve, at your exact size, with the price as you go.

02

We cut and ship it

Your stamp is carved and on its way in at least 10 business days — a rigid plastic plate with your words in its face.

03

Your contractor presses it

It takes about a minute during the pour. Step-by-step guidance ships in the box, so any concrete crew can do it.

THE MURPHY FAMILY

WHAT IT COSTS

\$100 and \$350

Where most stamps land · priced by size, shipping calculated at checkout

HOW LONG IT TAKES

at least 10 business days

From order to dispatch, then standard shipping across the US and Canada

HOW LONG IT LASTS

As long as the slab

20 years of field record — the words are the concrete itself

See your words in concrete — *free*.

The designer is free and needs no account to try. Type a name, pick a size, and watch it carve in 3D before you decide anything.
